

# Intellectual Property & Code Review

## A 1099Partners Workshop

### Benefits

- + Access to experts without the expense and commitment of a traditional consulting engagement or full-time employment.
- + Execution-oriented focus.
- + Workshops are customized to specific client needs.
- + Access to experts for follow on work, supervision, or implementation.
- + Deliverables are client intellectual property.

### 1099Partners IP Code Review Workshop

Targeted for software developers and investors this workshop addresses IP, unintended use of Open Source code and its potential impact to company valuation. 1099Partners under a special arrangement provides the same methodologies and tools used by the major software firms in their M&A evaluations. In addition to a preliminary detailed analysis of the code experts address how to reduce the risk of license violations, security risks, software vulnerabilities and export control violations. The workshop uses patented code search technology and evaluates source and binary materials. Clients and investors can elect to have subsets or an entire portfolio addressed to determine their risk. The Practice Team is supervised via a partnership with the leading firm in this arena.

### About 1099Partners

1099Partners is a consortium of technology executives who have either transitioned from five day corporate roles or successfully exited from emerging technology firms. They are not "between job" consultants but individuals who are hands-on, execution-oriented personnel who wish to stay engaged with firms on a project basis. Access to the team is without employment commitments, complicated or expensive sourcing arrangements, or full time obligations such as benefits. Each 1099 individual Partner leads workshops in their area of expertise, can serve as interim staff, or provide network or local geographic personnel access for clients. Our executives provide expertise in either strategy sessions such as diligence, or serve in execution roles such as business development, sales, finance, marketing and similar functional needs.

### Other Popular 1099Partners Workshop Topics

- Bio-Engineering: IP regulatory challenges and partnerships
- Software/Hardware: Go-To-Market audit and strategic assessment
- M&A: Considerations for technology resellers
- Cloud Computing: Transitioning strategies for software suppliers; Implementation considerations for Enterprises
- Mainframe Negotiations: Alternatives for hardware and support
- Oracle/Sun:® Enterprise alternatives
- Digital Strategy and Audit: Interactive health and competitive position
- State and Local Government: Business Leverage

These workshops range from 1-2 days and can be delivered on-site or interactively.
